PROFESSIONAL SUMMARY

Software engineer and cybersecurity developer with experience in React, TypeScript, Node.js, Python, Linux, secure APIs, vulnerability assessment, automation, and cloud deployment.

EXPERIENCE

Freelance Web Developer | Samaale General Trading Co.

Jun 2026 - Aug 2026

Hargeisa, Somaliland | Hybrid

- Architected and shipped a production B2B trading platform using React 19, TypeScript, and Vite with strict type-safe data models.
- Improved load performance with React.lazy code splitting, IntersectionObserver-based lazy rendering, and vendor chunk splitting.
- Built a bilingual English/Somali interface and secured a Cloudflare Workers API with Turnstile, field validation, and SHA-256 rate limiting.
- Delivered accessible workflows with a custom focus-trap hook, a Leaflet logistics map, and decoupled browser event architecture.

Security & Software Engineering Intern | Confidential Family-Owned Business

Jun 2024 - Aug 2024

Hargeisa, Somaliland

- Mapped internal web applications and network services, identifying 12 high-priority issues and translating them into actionable engineering fixes.
- Tested authentication, access control, Linux services, and network tooling with Nmap and Burp Suite, then documented remediation guidance.

Linux System Administrator | Freelance

Mar 2024 - Feb 2025

Small business clients | Hargeisa, Somaliland

- Reduced repetitive security work by 30% and saved approximately 8 hours per week by automating log analysis and patch checks with Python.
- Improved system uptime by 20% through Nagios monitoring, kernel tuning, and incident response averaging under two hours.
- Hardened 15+ Ubuntu and RHEL servers with SSH controls, firewalls, sudo policies, and repeatable security checks.

EDUCATION

B.Sc. Computer Science | University of Hargeisa

2023 - Expected 2027

GPA: 3.6/4.0 | Network Security, Cryptography, Web Application Security, Secure SDLC, Operating Systems

SELECTED PROJECTS

Cyber Attack Monitoring Dashboard | Next.js, TypeScript, Tailwind CSS, Vercel

Built a threat-intelligence workspace with server-side API proxying, IP reputation and CVE lookups, risk scoring, mitigation guidance, and production security headers.

Samaale General Trading Co. Digital Headquarters | React 19, TypeScript, Cloudflare Workers, Leaflet

Shipped a bilingual B2B commerce and logistics platform with catalogue navigation, branch mapping, secure contact workflows, route-aware SEO, and responsive UX.

Full-Stack Portfolio Platform | React 19, TypeScript, Vite, Vercel Functions

Built a production portfolio product with Markdown publishing, protected contact, Google Calendar booking, prerendered SEO assets, and security-minded deployment controls.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C, Bash, HTML, CSS

Engineering: React, Next.js, Node.js, Express, REST APIs, Vite, Tailwind CSS, Firebase, Git, GitHub Actions, CI/CD, Vercel

Cybersecurity: Nmap, Nessus, OpenVAS, Burp Suite, Metasploit, Wireshark, OWASP Top 10, CVSS, Linux hardening, vulnerability assessment

CERTIFICATIONS AND LANGUAGES

B.Sc. Computer Science, University of Hargeisa, 2023 - Expected 2027. Cyber Threat Management; Penetration Testing Professional; Microsoft Security Essentials; Career Essentials in Cybersecurity. Somali, English, Arabic.
