

# Guuleed Maxamuud Aw Abdi

## SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Hargeisa, Somaliland | +252 634406157 | guuleedmaxamuud40@gmail.com  
guuleedmaxamuud.dq.v | linkedin.com/in/guuleed-aw-abdi-517928277 | github.com/guuly05

### PROFESSIONAL SUMMARY

Software engineer focused on building clear, maintainable products from interface to deployment. Strong experience with React, TypeScript, APIs, data modeling, automated delivery, performance optimization, and reliable user workflows.

### EXPERIENCE

#### Freelance Web Developer | Samaale General Trading Co.

Jun 2026 - Aug 2026

Hargeisa, Somaliland | Hybrid

- Architected and shipped a production B2B trading platform using React 19, TypeScript, and Vite with strict type-safe data models.
- Improved load performance with React.lazy code splitting, IntersectionObserver-based lazy rendering, and vendor chunk splitting.
- Built a bilingual English/Somali interface and secured a Cloudflare Workers API with Turnstile, field validation, and SHA-256 rate limiting.
- Delivered accessible workflows with a custom focus-trap hook, a Leaflet logistics map, and decoupled browser event architecture.

#### Linux System Administrator | Freelance

Mar 2024 - Feb 2025

Small business clients | Hargeisa, Somaliland

- Reduced repetitive security work by 30% and saved approximately 8 hours per week by automating log analysis and patch checks with Python.
- Improved system uptime by 20% through Nagios monitoring, kernel tuning, and incident response averaging under two hours.
- Hardened 15+ Ubuntu and RHEL servers with SSH controls, firewalls, sudo policies, and repeatable security checks.

#### Security & Software Engineering Intern | Confidential Family-Owned Business

Jun 2024 - Aug 2024

Hargeisa, Somaliland

- Mapped internal web applications and network services, identifying 12 high-priority issues and translating them into actionable engineering fixes.
- Tested authentication, access control, Linux services, and network tooling with Nmap and Burp Suite, then documented remediation guidance.

### EDUCATION

#### B.Sc. Computer Science | University of Hargeisa

2023 - Expected 2027

GPA: 3.6/4.0 | Network Security, Cryptography, Web Application Security, Secure SDLC, Operating Systems

### SELECTED PROJECTS

#### Samaale General Trading Co. Digital Headquarters | React 19, TypeScript, Cloudflare Workers, Leaflet

Shipped a bilingual B2B commerce and logistics platform with catalogue navigation, branch mapping, secure contact workflows, route-aware SEO, and responsive UX.

#### Full-Stack Portfolio Platform | React 19, TypeScript, Vite, Vercel Functions

Built a production portfolio product with Markdown publishing, protected contact, Google Calendar booking, prerendered SEO assets, and security-minded deployment controls.

#### Gabay Keeper | React, TypeScript, Firebase, Tesseract.js

Created a private digital archive for Somali oral poetry with structured metadata, per-user Firestore rules, client-side OCR, search, and visual poem-card exports.

### TECHNICAL SKILLS

Frontend: React 19, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, Motion, responsive UI, accessibility, state management  
Backend and Data: Node.js, Express, REST APIs, Firebase, Redis-compatible stores, validation, idempotency, email workflows, Google Calendar API  
Delivery: Git, GitHub Actions, CI/CD, Vercel, Netlify, Cloudflare Workers, prerendering, SEO, performance optimization, technical documentation

### CERTIFICATIONS AND LANGUAGES

Training: Software Engineering, Python, TypeScript, React, JavaScript, Information Security, C Programming, and Linear Algebra.  
Languages: Somali (Native), English (Professional working proficiency), Arabic (Conversational).
